

Nomad.Chiltern

Laborotech

“Downloading Nomad”

These are generic instructions. However, phones differ slightly in their Java implementations. Please see your phone's Instruction Booklet or ask at the shop for help with any differences.

Ensure: that your phone has been data-enabled via your service provider.

Then:

Type the URL: <http://www.jnomad.com> into your phone's browser.

Click the Link to [Enter](#).

Click the Link to [UK](#).

Click the Link for [Chiltern](#).

Install Nomad.Chiltern? **Yes.**

Application Nomad.Chiltern is untrusted. Continue anyway? **Yes.**

Installation begins – you can safely ignore the any security question

Nomad will download to the **Application** or **Games Folder**.

When download is complete, proceed to this folder to open Nomad.

You will be prompted for a one-time-only download of configuration data before moving on to choose timetables.

“Downloading a Timetable”

Open up your **Application/Games Folder**.

Click on **Nomad.Chiltern**.

Nomad will display the following steps to help you to install timetables:

- 1 No Timetables!**. They're just a download away! **First Step:** fetch a selection list. (Press Keypad 9 or Soft Key "Continue")
- 2 Connecting:** Please wait, fetching data.... Press "Cancel" to Stop.
- 3 Connection Completed!** Success: List retrieved. **Next Step:** Choose a timetable to download (Press 9 or Continue)
- 4 Add Timetables:** 1> +Trains Press Keypad 1 to choose a timetable.
- 5 Add Lines:** 1> Birmingham, 2> Aylesbury. Press Keypad 1 or 2.
- 6 Connection Completed!** Success: Timetable installed. Press "Continue" to return to "Add more timetables".

You can then add the other timetable if you wish, or press the "Home" button to start using Nomad.Chiltern.

“Using Nomad.Chiltern”: **PRESS Keypad 0 on any screen for HELP**

Nomad always opens to the **HOME** Tab Screen.

You can move between Tab Screens using the "Left/Right" Navigation Key.

Home Screen:

1> Birmingham. This is your selected timetable (Keypad 1 to change)

2> Change direction. (Keypad 2 swaps Arrival/Departure stations.)

3> Departure Station. (Keypad 3 provides a list to choose from)

4> Arrival Station (Keypad 4 provides a list to choose from)

5> Font Small (Keypad 5 will toggle font between large & small)

6> Timetable Manager (Keypad 6 will take you to a screen where you can "Update, Delete or Add" Timetables.

7> About. (Keypad 7 will provide version number, license information and support contacts)

Use the "4-Way Navigation Key" to move between Tabs (Left/Right Navi Keys) or Scroll down page (Up/Down Navi Keys).

Highlight and use the Fire Key or press the Keypad number corresponding to item number to carry out an action.

Use the Left/Right Navigation Key to move to this Tab Screen.

Times Screen: (Where you gain "Real-time" information)

1> Departure Station (Keypad 1 for Station information)

2> Arrival Station. (Keypad 2 for Station information)

3> and up> Lists the next departures for services leaving your chosen departure station and stopping at your chosen destination station.

(How many services are displayed is dependent upon your screen size and whether you have chosen Large or Small fonts.)

Departures in "**Orange**" font are trains that have already left the station but are yet to arrive. (Handy if you are collecting someone from the train)

By pressing the Keypad Number corresponding to "Next Page" you can view train departures for the next 24 hours.

Pressing Keypad 1 or 2 will request an "Update" about the station. Eg Car Park status, Bus stops, Ticket office times, etc.

Pressing any other number corresponding to a train departure will provide you with up to date status information about the service.

Use the Left/Right Navigation Key to move to this Tab Screen.

Info Screen:

This screen provides you with the Full schedule of the service you have chosen, showing every station that the train stops at. Your selected Departure and Arrival stations will be in **Bold** Font (If your phone has this capability)

This screen will show you whether a service is an express for any part of its journey.

An arrow will point at the station the train is approaching if the service chosen has already left your selected departure station.

Some Important Information. Nomad runs off the system time set on your phone. It is important that this is set accurately for Nomad to work to its full potential.
